## About Me

My goal is to contribute to the company's success by bringing the skills and mindset needed to turn complex challenges into functional solutions. My approach for development brings strict attention to detail, and dedication to ensure every system I build is efficient, maintainable, and aligned with all business goals.

## Experience

### Eltcode

(June 2025 - Present)

*Software Developer & Co-Founder*

- Delivered modern, responsive web applications for local Bosnian businesses using best UI/UX practices.
- Translated client requirements into structured designs and functional web solutions.
- Implemented lightweight, fast, SEO-optimized front-end architectures.

### INTUS Windows

(Mar 2024 - Jul 2025)

*Software Developer*

- Led development of the Planning Module, aligning factory workflows with ERP-driven production schedules.
- Engineered logic for time calculations, capacity tracking, and workstation synchronization.
- Delivered scalable, maintainable code using ASP.NET Core, Blazor, PostgreSQL, and modern architecture principles.

### Longrun Solutions

(Oct 2022 - Apr 2024)

*Software Developer*

- Developed full-stack features across multiple internal and public-facing applications using ASP.NET Core and Blazor.
- Contributed to ERP-style modules for workforce management, order tracking, and operational workflows.
- Applied clean architecture principles, SOLID practices, and efficient database modeling to improve system reliability.

### Freelance

(Sep 2021 - Oct 2022)

*Software Developer*

- Built small ASP.NET Core applications to help local businesses automate daily operations.
- Delivered end-to-end solutions - from requirement gathering to deployment and maintenance

### Fragnet Networks AB

(Jan 2022 - Sep 2022)

*System Administrator*

- Optimized server configurations and monitored system performance across high-traffic environments.
- Analyzed resource utilization to identify bottlenecks and improve overall stability.

### Esport Adria

(Jul 2020 - Oct 2021)

*Graphic Designer & Web Designer*

- Designed visually engaging graphics and layouts for online esports events and social media campaigns.
- Collaborated with the marketing team to create brand-consistent visuals and promotional materials.

## Education

### Faculty of Information Technologies

*Software Engineer*
